

Cute Man with A Hat

Take 2 pairs of co-ordinating but different socks. Either small mens, ladies or large childrens socks.

Cut as shown above.

Using backstitch, or zig-zag if using a machine, sew the cuff end and the long side seam of each arm and leg, leaving the cut short end open for stuffing.

Stuff the body, arms and legs.

Now Mix the contrasting body with the other arms, legs and hat.

Close the opening at the top of the head using a running stitch and pulling it up tight, tuck the raw ends in and oversew the seam well to secure.

Next embrioder the face using 2 strands of embriodery silk. You can hide any knots when you fasten on/off on the top of the head as this will be hidden by the hat.

Arrange the hat and stitch firmly all the way around. Next attach the arms and legs and you are finished!! Repeat with second sock to make him a friend!
